Fuel Prices Help to Fuel New Products At Cornerstone Specialty Wood Products, LLC

Cincinnati, OH— Cornerstone Specialty Wood Products, LLC has been hearing their customers' woes concerning freight charges, jobsite expenses, and rising material costs.

As the major leader in mezzanine flooring systems, Cornerstone Specialty Wood Products has expanded their ResinDek® product line to include lighter weight mezzanine decking panels to save material usage and to reduce freight charges by as much as 30%, depending upon the size of the project.

“Although these new ResinDek® 50 series panels are ½” thick rather than ¾” thick, we have found after 1 ½ years of extensive engineering and testing that they stand up to pallet jack traffic on mezzanines and pick modules in warehouse distribution centers,” said Greg Doppler, President of Cornerstone Specialty Wood Products, LLC.

The new ResinDek 50 series includes, ResinDek® XLD50 for pallet jack loads up to 1,250 lbs and ResinDek LD50 for loads up to 2,000 lbs and are available in Gray Diamond Seal®, ESD, Clear Diamond Seal® finishes, and unfinished. The 50 series panels have the same 7-Year Product Warranty as the other ResinDek® flooring panels.

Cornerstone Specialty Wood Products, LLC has installed over 35 million square feet of ResinDek® flooring in distribution centers, warehouses, manufacturing plants, logistical centers for major corporations internationally. ResinDek® panels consist of recycled content and are eligible for LEED® credits in LEED® certified buildings.

For more information regarding these new products please contact Cornerstone Specialty Wood Products, LLC at 888-755-3048 or www.resindek.com.
