

# 10-YEAR PRODUCT WARRANTY

Cornerstone Specialty Wood Products, LLC® (CSWP) hereby warrants all of its ResinDek® panels to be free from defect, structurally sound, and able to safely carry specified design loads. At its option, CSWP will either replace or make a reasonable allowance for repair to all ResinDek Panels found to be defective for a period of ten (10) years from date of shipment to the job-site. This warranty is between CSWP and its customer. Warranty will flow through and transfers to the end user for the entire period of this warranty.

- All panels must be installed, used and maintained in accordance with ResinDek Installation Instructions. ResinDek panels are intended for interior applications.
- All panels must be properly unloaded, protected and stored in a dry environment prior to their installation.
- For manual pallet jacks with polyurethane wheels Do Not Exceed live and dead loads as follows per specified ResinDek panel. Contact CSWP for manual pallet jacks with wheel types other than polyurethane. For robotic traffic, see alternative robotic warranty.
  - Allowable loads are based on testing conducted by CSWP with 36" o.c. spans on ResinDek LD, MD, HD, & ResinDek Max. Longer spans may reduce load carrying capacities.
  - ResinDek panels must be installed with only fasteners approved in advance by CSWP over the gauge and type of corrugated metal decking for the load on the floor as approved in advance by CSWP. A minimum of 20 gauge steel is required when using corrugated metal B Deck. 18 gauge is required for loads exceeding 2,500lbs.
  - ResinDek LD 2,000 lbs. max. (ResinDek LD with MetaGard 2,500 lbs max.)
  - ResinDek MD 3,500 lbs. max.
  - ResinDek HD 4,500 lbs. max.
  - ResinDek MAX 8,000 lbs. max.
- ResinDek Xspan® and Xspan® FR must be supported at intervals approved in advance by CSWP with structural supports capable of withstanding loads imposed. Fastener number, pattern and type must be approved in advance by CSWP. Refer to ResinDek Xspan and Xspan FR tables below for allowable point loads, uniform loads, & live and dead pallet jack loads.

Product Name	Unit of Measure	16"	24"	32"	40"	48"
ResinDek® Xspan	Allowable Uniform Loads (lbs/ft²)*	375	225	125	75	50
	Allowable Pallet Jack Loads (lbs)**	3,000	2,700	2,300	2,000	1,500
ResinDek® Xspan FR	Allowable Uniform Loads (lbs/ft²)*	375	225	125	75	50
	Allowable Pallet Jack Loads (lbs)**	3,000	2,700	2,300	2,000	1,500

**NOTES:**

- All allowable loads are based on a two span condition - please contact Cornerstone for other span conditions.\*
- Allowable pallet jack loads includes live load + weight of pallet jack itself.\*\*

- Testing was completed with polyurethane wheels and any deviation or alternative wheels such as crowned, steel or plastic could void the warranty. Contact CSWP for more information.
- CSWP must be notified promptly in the event of a problem with any of its materials, and given a minimum of two weeks notice to correct the problem on its own, and/or personally visit the site if necessary, prior to any repairs and remedies by others.
- There is no warranty coverage for acts of God, exposure to extreme weather, prolonged exposure to standing water, or for impact or concentrated loads. There is no warranty coverage for acts of negligence by the installer, the customer, or the end user.
- Electric pallet jacks and robotic traffic are assessed differently and are not addressed in this warranty. Contact CSWP for a specific warranty to cover these special applications.
